

BLUE RIDGE TIMBERWRIGHTS

The Blue Ridge

With an inviting and comfortable layout, The Blue Ridge is the perfectly affordable timber frame home. Huge windows, on either side of a cozy fireplace, accent the living room. With up to three bedrooms, two baths, a large kitchen and a great room it's just the right size.

However, options are endless with this versatile design. For example, the rear porch can be incorporated into the interior of the home, creating additional square footage. Beautiful skylights, which spill natural light into the kitchen, can be added. Or simply customize the plan to fulfill your dreams.

Choose your own timber and finishing from a wide range of options.

Total square footage as shown is 1200 (excluding porches).
