

BLUE RIDGE TIMBERWRIGHTS

## The Concord

The Concord is an 1,800 square foot home (excluding porches).

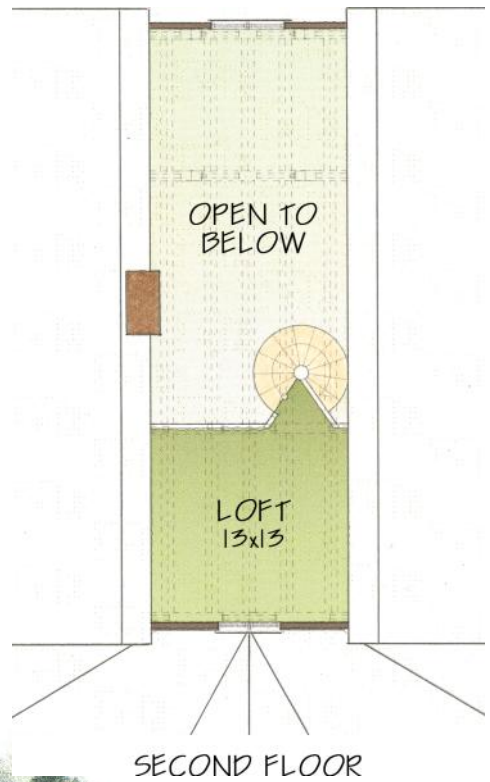

The central feature of this two bedroom, two bath timber frame home is a cathedral ceiling in the great room open to a loft above. The spiral staircase and arched—bottom chord trusses add elegance to this simple frame.

The second story loft provides a great retreat for work or leisure. An optional basement could be planned to include a large workshop and wine cellar. In addition, the front porch of this home is partially timber framed.

Choose your own timber and finishing from a wide range of options.
