

BLUE RIDGE TIMBERWRIGHTS

The Hampton

The Hampton is a 2,150 square foot three to four bedroom timber frame home with a large central vaulted great room. A second floor bridge adds visual interest to the great room. The dining room can be left open to the kitchen or closed for a more formal feel. The fireplace in the great room can be your choice of gas—insert or masonry wood burning.

The garage is located in the basement, perfect for tight sites or maximum space utilization. This compact plan maximizes your budget with both construction and energy costs.

This package can be purchased as designed or customized to suit your needs. Choose your own timber and finishing from a wide range of options.
